## LABORATORY GROWN DIAMOND REPORT

|                         |                            |
|-------------------------|----------------------------|
| March 23, 2026          |                            |
| IGI Report Number       | LG784635241                |
| Description             | LABORATORY GROWN DIAMOND   |
| Shape and Cutting Style | CUSHION MODIFIED BRILLIANT |
| Measurements            | 9.43 X 6.48 X 4.30 MM      |

## GRADING RESULTS

|               |             |
|---------------|-------------|
| Carat Weight  | 2.16 CARATS |
| Color Grade   | D           |
| Clarity Grade | VVS 2       |

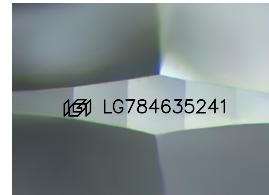

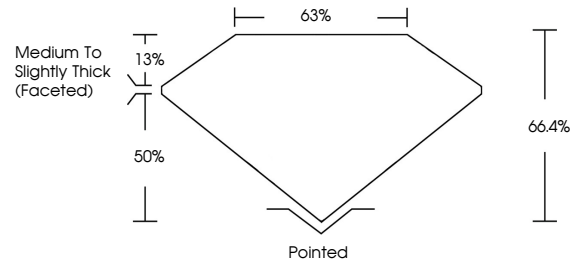

### ADDITIONAL GRADING INFORMATION

|                |                                                                                               |
|----------------|-----------------------------------------------------------------------------------------------|
| Polish         | EXCELLENT                                                                                     |
| Symmetry       | EXCELLENT                                                                                     |
| Fluorescence   | NONE                                                                                          |
| Inscription(s) |  LG784635241 |

Comments: This Laboratory Grown Diamond was created by Chemical Vapor Deposition (CVD) growth process.  
Type IIa
